

The committee held an executive session and then adjourned until 2 P. M. The following day the committee's meetings would be open and public, was also given to the official stenographer. The report of the meeting was as follows:

THE FIRST WITNESS.

At the afternoon session of the committee investigating committee, Mr. Roberts occupied a sensation by denouncing A. C. Schrodler, a well known attorney from Utah. Mr. Schrodler was Robert's attorney, and the committee when Mr. Roberts was called to the stand.

"I object, I object to this witness, if he comes here as an attorney. I object to him if he comes as a witness. He is not a witness. He is unworthy of confidence and because he is a common swindler. And I propose to establish by the record that he is a common swindler that he is utterly unworthy of belief."

After some explanations, Mr. Schrodler was permitted to testify.

DAMAGING TESTIMONY.

Mr. Schrodler declared that it could be established that Roberts now is maintaining the status of a polygamist; that children of his are being born to him in polygamous wives, among them being twin-born to Cella Dibble Roberts, on August 1, 1906, and that he had been holding out Dr. Maggi Shopp Roberts as a wife, while he had been living with her in Salt Lake City.

After Roberts' statements, Mr. Schrodler said he could be established by witnesses in Utah.

After Mr. Roberts had demanded from the committee a ruling of his disbarment and an opportunity to present authorities in support of his statements, the committee adjourned at 10 o'clock next Tuesday morning.

TAYLOR'S SHARP QUESTIONS.

These showed that Mr. Taylor of Ohio had been in the city of Salt Lake during the course of these Mr. Taylor said: "Changes are made that you were coming to visit me in Salt Lake City, and that since then you have been guilty of the same offense; some years ago you were guilty of the same offense and ever since then have maintained polygamist relations with these wives."

Mr. Taylor then asked the committee to begin for the inquiry: "One of the material facts to be ascertained as to who were the women who were married to him, and how many of them were married."

Polytechnic Business College

Y. M. C. A. Building, 12th and Clay Streets,
OAKLAND, CAL.

One of the largest and most successful schools in the State.
Gives One Month's Tuition FREE

It is with very great pleasure that the management of the Polytechnic Business College again announces through "THE TRIBUNE" that the school continues in the most prosperous and flourishing condition.

The large enrollment of students the past year and the present rapid increase lead us to believe that our efforts to maintain a high grade Commercial College in Oakland are appreciated by a discerning community.

No false promises or exaggerated statements, and no repudiated obligations have ever characterized its management.

We feel deeply gratified to our former students, friends and patrons for their encouragement and many kind offices, and promise a continuation of our best efforts to maintain the Polytechnic College in the front line of the permanent and honored educational institutions of the State.

The marked degree of preference shown our College by professional and business men gives us every reason to feel justly proud of our past record.

We present herewith a partial list of our students from this vicinity who have within the past few months received positions.

NO CONSUMPTIVES IN THE SCHOOLS. TELL TROUBLES TO THE COUNCIL

Board of Health Would Have Teachers Undergo an Examination.

At the meeting of the Board of Health last evening the following resolution was offered by Health Officer Todd:

"Resolved, That it is the opinion of this Board that no employee of the School Department shall be retained in the service while suffering with tuberculosis, and that those employees suspected of the disease shall undergo medical examination."

The matter was finally taken under advisement.

The subject was fully discussed and the Board seemed to be in favor of the proposition.

In presenting the subject Health Officer Todd said: "I have a resolution to introduce before the Board tonight respecting people afflicted with tuberculosis."

He is being employed in the School Department. I have conferred with Superintendent of Schools McClymonds who has agreed with me that any one afflicted with consumption should not be retained in the schools. During last year a teacher in a school was found to have tuberculosis. She was removed from the school and a few weeks of her death, which was caused by that disease. It is not right, and each person should be excluded from coming in contact with school children."

"I have been in touch with the School Department in one way or another for the last twenty-six years. During that time there has always been more or less consumption in the schools. At the present time the people are so afraid that the resolution will in all probability be made a rule by the Board of Education. The matter could easily be regulated to the satisfaction of the employees, for anyone suspected of being afflicted with the disease could be examined and the case determined by a physician and the removal effected."

The resolution met with no opposition. In fact Dr. Maher said he would rather deny his children an education rather than have them come in contact with any one afflicted with the disease.

Dr. Kinnings said: "I have always had so great a fear of consumption that I feel relieved when my services are no longer required in a case. There ought to be some rule such as Dr. Maher has mentioned, enforced in the schools."

"It would be excellent if consumptive children could also be restricted, as I think the liability of its spreading is as great if not greater from them than from the teachers. I know of cases where children are being sent to school who are not fit to live two years at the most. It is such cases as these which should be restricted as well as the teachers."

It was agreed by the entire Board that such was the case, but the public, they decided, had not been educated to such a point as to consent to excluding the children. So the motion was left in its original form to be presented to the Board of Education.

MOB TEARS UP STREET RAILS.

Six Men Captured and One Shot By the Police.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SPRINGFIELD, Ill., Dec. 8.—At 1 o'clock this morning a message received by the police here states that a mob was tearing up street rails at Ridge-

view, a suburb, and that wires were being cut. Although outside the jurisdiction of the Springfield police, several officers with Sheriff Woods and deputies hastened to Ridgeview, where they found the track torn up and the wires cut.

The police captured six men thought to have helped in tearing up the tracks. Two of them broke away and ran. A third was shot and killed. Harry Hayes was wounded in the leg and recaptured. The other men arrested were Michael Gully, William Moller, Frank Hand, Walter Salves and one whose name is unknown. The prisoners were brought to the County Jail in a patrol wagon.

Boulevard Club Has a Few Requests to Make.

A meeting of the Boulevard and Perilla Delat Association, Association of East Oakland was held last evening at the rooms of the club, 1833 Fifth avenue.

A delegation of gentlemen, consisting of J. W. Stoddard, St. J. Delat, J. L. Delat, residing in the district near the main factory, were present to urge upon the club its continued interest and support in endeavoring to obtain the removal of that factory to a less suitable location.

A committee consisting of W. P. Todd and B. H. Welch was appointed by the club to attend the meeting of the City Council on next Monday evening, when the ordinance regarding this matter will come up for final passage.

Charles D. Hayes, chairman of the sub-committee on the subject of securing a station at Fifth avenue and East Eighteenth street, stating that the information received by the club at this point would undoubtedly be granted at an early date.

Secretary B. H. Welch of the club was instructed to prepare the following petition to the City Council: A petition respectfully requesting the opening of East Twenty-third street from Fourth to Seventh avenues, a petition to the City Council to the effect that the club be authorized to place a light on the corner of East Eleventh street and Second avenue; a petition asking for a survey by the city to determine its rights to the property through which the proposed opening of East Eleventh street from Fourth to Seventh avenues is contemplated, and a petition to the City Council requesting that the club be authorized to place a light on the corner of East Eleventh street and Second avenue; and a petition to the City Council requesting that the club be authorized to place a light on the corner of East Eleventh street and Second avenue.

A discussion was held by the members of the club present as to the best method of procedure to remedy the damage that is being done to East Eleventh street between the boulevard and Fourth avenue by the standing water on either side of said street soaking into and causing a gradual sinking in places of the street.

The majority opinion of the subject seemed to be that the low ground on the north and south sides of the street should be filled by dredging from the lake if possible, the property owners to pay half and the city half the expense, inasmuch as the adjoining property on both sides of the street had been gradually damaged and the whole trouble caused by the damming of the water by the fill ordered by the city across the marsh without providing proper and sufficient outlet for the storm water.

J. Walter Scott and S. I. Kellogg Jr. were duly elected to membership in the club at this meeting.

M. J. KELLER ON POSTOFFICE SITE. Tells Why He Favors Bacon Property on Franklin Street.

Editor Tribune: Inasmuch as THE TRIBUNE, in furtherance of its usual laudable policy of commenting on all that is good, and condemning what is bad for the general interests of Oakland, has in the fulfillment of the service to the Board of Trade in their recent decision regarding the selection of the site for location of the postoffice, I as a member of that body feel that it is my duty to publish in this paper an explanation of the reasons that prompted my position (which was in fact a tact one) is due to your readers.

Appreciating the loyal work of THE TRIBUNE for the good of Oakland's interests, its well-known, and I hope, unimpeachable position, and its explanation of the reasons that prompted my position (which was in fact a tact one) is due to your readers.

It is a matter of great surprise that there should be such sentiment against the Franklin street site as is shown in the article above mentioned, and that some of the advocates of that location could be found.

There are such in Oakland, however, and some of them are the discoverers of many expressions on that line, and with such a similarity of language can be largely attributed to the fact that the thing can be wrong."

It is clearly seen that considerable partiality was shown in the interviews conducted by the Board of Trade, and that those in favor of the site, recommended by the Board of Trade, were excluded from the interviews.

At the first place the meeting of the Board was not exclusive, as stated by THE TRIBUNE. A notice of the meeting was published in all the newspapers for more than a week prior to the meeting, the main idea being to avoid any harm to the city.

IN WORLD OF MUSIC

Benjamin Retires as Leader of Presbyterian Church Choir.

Jean and Edouard De Reszler are perhaps the two most famous singers of the present decade. They belong to the most celebrated family of singers of modern times. Their mother was a distinguished amateur; a sister, Josephine (now dead) achieved great success as a soprano in nearly all the capitals of Europe. They come of that race which so often teaches in song what it has learned in suffering; for they are Poles, their birthplace being Warsaw, Poland. Through the prominence and position of their father, who was a Count, of state, and the remarkable musical talent of the mother,

 The family is Jewish, now acknowledged to be the best stage singer since Marie, though he began his career as a violinist. At 25 years of age he sang in the cathedral, and the rare quality of his voice aroused interest in him. He was in the Mariinsky Theatre and obtained his degree as advocate, but his underlying artistic nature was too strong for him. He took lessons from the excellent Professor Chaffet, then in Italy studied under the famous baritone, Franco Cecchi.

such singers as Mario, Timberick, Faure, and the late, great, Enrico Caruso. His first appearance in Venice in "La Gioconda" was in 1874, under the name of De Besseli, and a few months later was introduced to the London stage in the same role. Although the critics called attention to the fact that he was a tenor, he was valued for his voice and resonance as a baritone, being much like a tenor, he persevered in his career as a tenor, he attained considerable celebrity. But when his physical strength began to fail, he was the strain of singing parts that were written much too low for him so, feeling that he was not doing justice to his voice, he decided to retire temporarily from the stage and prepare himself for the tenor part of the opera. He was then aided by the wise counsels of Soragna, who made his debut as a tenor in "Robert le

He was only upon the suggestion of Jean, then in the first flush of his success, that the possibility of his success, that the great bass voice were recognized and Edward forsook the fields for the footlights. He received his musical education in Milan under Stella and Albi, and later studied with the celebrated Neapolitan basso, who had been for four years in Italy, he returned to Paris, to himself in the hands of Strigilia, though long a famous teacher was Jean, who took the keenest interest in his brother's rapid progress.

In 1850, at the Italian opera under the baton of the illustrious Donizetti, Reszkie made his first appearance as the hero of the opera "The Jew".

He was the first to sing the part of the most enjoyable solo.

His voice is a tremendous rich bass, full and resonant in quality, as enabling of producing a large volume of sound and strength and power. His art, like that of the Italian school, is based on the traditions of the Italian school, and is characterized by a fine and artistic balance which they carefully achieved is largely due to their careful study and criticism of each other's work.
